VIETNAM SECURITY SUMMIT 2021

- A new backdoor called Specolous by APT41 group exploited the 0-day vulnerability in Citrix network appliances. In addition, the group exploited the 0-day vulnerability 2020-10189 in Zoho ManageEngine Desktop Central.
- Unidentified hackers used a new Trojan called PaelRAT to attack SCADA systems in Azerbaijan.
- APT37 (North Korea) persisted with their attacks and continued using the Konni Trojan and SYSCON/SANNY, along with decoys about COVID-19, academic conferences, nuclear issues, and the Paralympic Games.
- Naikon hacker (China) remained undetected for about five years. The group carried out cyberespionage attacks against government entities in Australia, Indonesia, the Philippines, Vietnam, Thailand, Myanmar, and Brunei using a new Trojan called Aria-body.
- The Charming Kitten threat group (Iran) is suspected of attempting to compromise the servers of the World Health Organization and Donald Trump's presidential campaign.

THE RETURN OF VIETNAM'S MOST ANTICIPATED CYBERSECURITY EVENT

Proudly hosted by Ministry of Information and Communications and co-organized by Authority of Information Security (MIC) and IEC Group, **Vietnam Security Summit 2021** will be back on October 27 - 28 featuring the theme "**Cyber Security In The Digital Age: Challenges and Solutions**" with a view to build a cohesive and fruitful community for security leaders, experts and solution suppliers in Vietnam and the region.

Spanning across **01 VIRTUAL Plenary sessions** and **03 VIRTUAL Conference sessions** with participation of leading speakers worldwide, **Vietnam Security Summit 2021** is expected to attract over 800 high-level delegates from the public & private sector. The conferences and panel discussions will be the tech industry's premier forum, providing up-to-the-minute insights on safeguarding critical information infrastructure utilizing enhanced SOC ecosystems as well as cloud security and implementing cost-effective enterprise security solutions.

Alongside the conference, the **VIRTUAL International Expo** will bring together over 30 tech leaders to show off their cutting edge technologies and offer delegates with unique experiences and the right solutions to alleviate their cyber concerns.

ABOUT VIRTUAL CONFERENCE

Vietnam Security Summit 2021 is going fully digital!
Via the virtual conference platform Zoom, Vietnam Security Summit brings together more than 40 top experts from public agencies, enterprise across some key industries and leading solution providers. The platform enables access to on-demand content, bringing the event to you wherever you are.
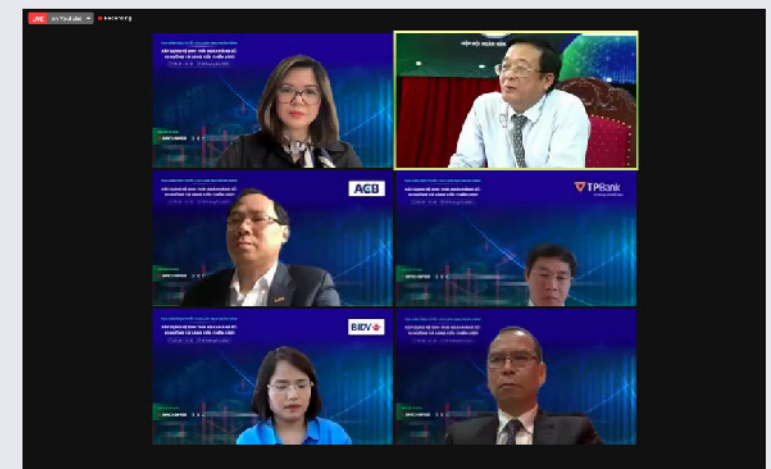

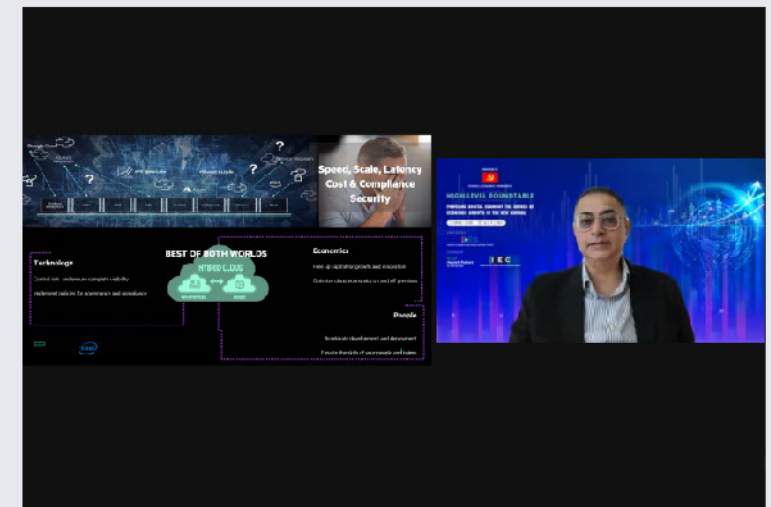

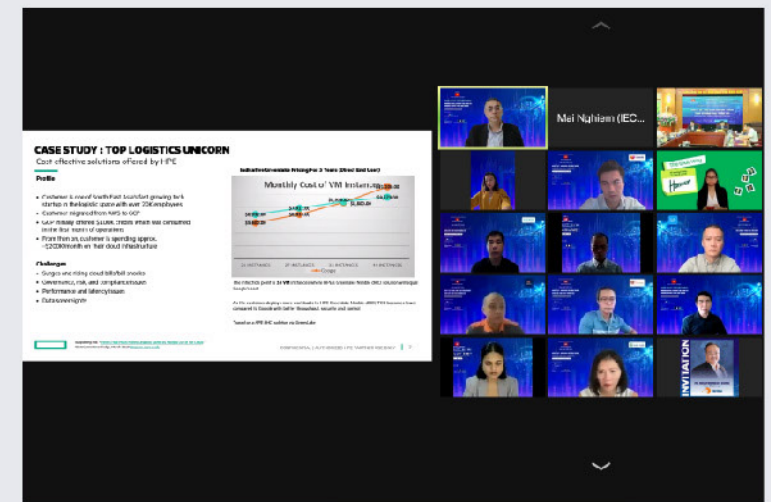

CYBER SECURITY IN THE DIGITAL AGE: CHALLENGES AND SOLUTIONS

The Plenary session themed "**Cyber Security In The Digital Age: Challenges And Solutions**" will be the premier forum for participants to share their vantage and strategic view on important cyber security matters. In particular, key government agencies will share their plans and visions on safeguarding national critical information infrastructures while tech leaders propose tried-and-tested strategies to protect digital assets against increasingly aggressive threats.

FEATURED TOPICS

▶ Supply chains Lessons from Solarwinds attack and Suggestions

▶ Overview of Information security in 2021: Perspective from the Enterprise

▶ Trends of Cyber Crime Landscape in the period of 2021 - 2022

▶ 2021's Cyber security in Vietnam: The Emerging challenges

2020 FEATURED SPEAKERS
