A GLIMPSE INTO VIETNAM'S CYBER SECURITY LANDSCAPE

In the evolving development of the cybersecurity sector worldwide, Vietnam presents a compelling opportunity for global cybersecurity innovators, offering a dynamic market with substantial room for technological intervention and strategic investments. The Vietnamese cybersecurity industry is projected to grow by 11.73% annually from 2024 to 2029, driven by the country's digital transformation and the need to secure Cloud computing, IT infrastructure, Data centers, IoT devices, and AI models.

WHAT TO EXPECT IN 2025

Building on Vietnam's growing cybersecurity potential, Vietnam Security Summit 2025 serves as the premier platform to transform market opportunities into strategic action. Under the theme "Cybersecurity: Building Resilience & Trust in an Ever-Changing World", the summit will unite visionary security providers & IT decision-makers to explore critical topics such as Cloud Security, Data Security & OT & IoT Security, offering actionable insights to fortify Vietnam's digital ecosystem.

Alongside the high-impact sessions, this year's summit will also feature a technology exhibition, showcasing cutting-edge cybersecurity solutions & services from global leading providers, including XDR/EDR, DDoS, Ransomware, CNAPP, DLP, Threat Intelligence, IAM/PAM, Zero Trust, SOC/SIEM... Join us to amplify your brand, demonstrate your expertise, & position your organization at the forefront of Vietnam's digital defense landscape.
